Little moments of enjoyment: Possession of great skin due to hot humid air, immense speed at F1, a desperately needed facial and massage, unknowingly standing next to Leclerc, holding a tiny child's (Aryton) hand while walking around malls, tiny components dissipating energy in a mechanical watch by local female designer.

Memorable food consumption: Candlenut (Michelin-starred Peranakan cuisine!!!!), 亞坤/Ya Kun Kaya Toast, 松發肉骨茶/Song Fa Bak Kuh Teh, durian platter at DurianBB, laksa, LeVel33 scallops, a very peaty Bruichladdich whisky, and 伍坤辣椒板面/Ng Kuan Chilli Pan Mee.

Notable reptile spotting: monitor lizard at the Gardens by the Bay.

Yearly pilgrimage: Ate lots of oysters, stayed at a little cottage by the coast, saw a ton of jellyfish while kayaking. Took a little detour to Heidrun Meadeary for wedding gift.

Notable amphibian spotting: Pacific Newt at the door of the cottage.

On brand house-warming gift: designed a fish card, tinned fish, and fish dish. Greeting inside: "Congrats on the new house, hope you like the fish". Realised too late that I was supposed to write a heartfelt message...oops.

Miscellaneous feel-good moments:

- * Finally made it to omakase at Domo.
- * VP of Systems Design informed manager's manager that he was impressed by our conversation during SP poster session.
- * Rolling off one headache project!
- * Designed one Slug Bar promo post.
